VERSIDE HOMESTEAD ASSOCIATION.

association of whose organization we gave
unt a few days since, is now ready to dis-
shares. As it is with one exception, (the
ed Homestead Association,) the pioneer as-
tion of that kind in this city, it may be
ough to state what are its purposes, and
nner in which it is proposed to conduct its
ons. The purposes of these Homestead
ations are not at all speculative in the
sense of the word. They are dependent
profits of their investment upon the natu-
vance in the value of their lands, conse-
upon the co-operation of many individuals
holders—and the advance on values of all
nding lands by reason of the expansion of
tion and demand for room outside of, but
ear, the city. The Riverside Homestead
ation has a fraction over one hundred and
acres of land situated just south of
yn on the east side of the river, the nor-
ndary line being about one mile from the
landing at East Portland. The tract lies
strip along the Wallamet river, half a mile
gth, and another strip along the Oregon and
nia railroad, half a mile in length, the two
being connected near the middle by two
f blocks (with a street between them,) the
forming a figure not unlike the letter H.
ivided into 74 blocks, 200 feet square (streets
running at right angles) and 80 fractional
s, along the river front. The shares num-
0, worth $50 per share. It will be seen that
e thus represents nearly a lot with an undi-
interest in the 80 fractional lots. The 80 frac-
shares are to be sold off at the proper time
benefit of the Association, shareholders
g in for the proceeds in proportion to the
r of shares held. When all shares are
and the Association shall
to do it, the choice of lots and blocks
be put up at auction to the highest
, the proceeds of such sales, after deducting
riginal price of shares or lots, to be divided
y among the whole number of shares.
if a person wants a particular lot or block
willing to pay $100 or $500 premium (more
as the case may be) he pays it and takes
t or block as his individual property, the
um being divided among the whole number
areholders. It will be seen, therefore, that
thing is co-operative, and all interests
No man can make a dollar out of it with-
so making a dollar for every other share-
holder. There is no chance for loss,
roperty, by some chance, should depre-
elow the first actual cost. Whether this
to happen in the case of this particular
of land must be judged by each for himself,
onsidering the steady and unprecedented
on real estate in this city and neighbor-
and at East Portland and vicinity, for the
year or two, it seems hardly possible
to go back.
the Riverside Association all proper
seem to have been taken to guard against
polies of shares. No person is allowed
ore than the number of shares represented
blocks, or twenty-four lots, and votes
ning the operations of the Association
cted in the same manner. The buyer
may pay down $60 per share, which
pt them from all assessments, or they
15 quarterly with an assessment of
, payable with the first installment,
in this latter case to another (and only
) amount of $3 per share. Upon
ent of the shares in full, with the
ove, the holder is entitled to his certif-
is proportion of all the profits
urces. No officer of the Association
pay for services except the Secretary, who
$25 per month; so it will be seen that
ses must be light.
at part of the tract lying along the river
h plateau, nearly level, about 50 to 60
s the water. There is no part of the
f blocks but commands a splendid view of
and and the river for miles up and down
m. That part of the tract lying along
oad is, every foot of it, of the richest
nd adapted to gardening purposes.
little stream of pure water runs th
st the entire length of this wing of the
ding the means of irrigation, and power
t to supply pure water to every part of the
tract. There is not a waste lot or fraction
the entire tract. Under all these advan-
, it would seem impossible that there should
y chance of loss to shareholders. With
each shareholder, if he choose, may

sent, or he may continue his interest

have been led to make these remarks from
hat the subject of making homesteads on the
of this city and East Portland, is being thor
sed here among all classes, and one homestead
erside," just south of East Portland—has
established. The site selected is a tract of
little over a mile south of the ferry landing,
d like the letter H, one arm of which, a half
gth, borders on the river
m this portion of the homestead, which is
trifle above the other prong of the H, but is
or fifty feet above the river, can be had an
iew of Portland, East Portland, the shipping
Villamette river for several miles. The land is
, and is partly covered with light fir timber,
of land just wide enough for two rows of blocks
an avenue between them, connects the west
H (which has already been described) with the
et. This last tract of land is in a beautiful
, which is now under a high state of cultiva-
gh its whole length runs a trout brook, the
ich is clear as crystal. With a hydraulic ram
iation propose to have water conveyed
to every portion of the homestead.—*Daily B*

EASTERN DATES TO OCT. 13.

French Account of the Battle at Orleans.

BRUSSELS, Oct. 13.—The report that the Prussian minister at Brussels was recalled is untrue.

TOURS, Oct. 12.—The following particulars of the battle at Orleans is received. The French were completely crushed by a superior force and artillery, and were driven back into the suburbs. The Papal Zouaves and Mobiles fought courageously, but regulars fled at first fire. The Prussians opened fire on the town and owing to barricades many fires occurred. The railroad depot and other large establishments were destroyed.

At last accounts people of Lyons were flying in all directions. At a late hour last night the Prussians had pushed south to Beaugency and Meung, beyond Orleans, and it is feared the Papal Zouaves will be surrounded and captured. Other French troops in the neighborhood are in good position and heavy reinforcements were sent to them during the night.

Garibaldi takes the Field—Retaliation—Prussians enter Orleans.

Garibaldi left Tours this morning for the field. Government repeats its determination to retaliate for all Prussian atrocities.

Official reports from Beaugency state that the Prussians entered Orleans last night. No news from Paris. To-day a balloon party is preparing to go there.

NAPOLEON'S SURRENDER.

FURTHER DETAILS OF THE INTERVIEW BETWEEN THE TWO SOVEREIGNS.

LONDON, Sept. 24, 1870.

The *Times* this morning, in its war correspondence, has the following details of the meeting of King William of Prussia and the Emperor Napoleon at Bellevue. The meeting between the two monarchs was very cordial apparently. After shaking hands, they entered the conservatory. The officers who were in the conservatory then came out, leaving the two alone. A dialogue then took place, of which the following is the substance:

King William—God has given our arms victories in the war you have precipitated.

Emperor Napoleon—The war was not sought by me, but was imposed upon me by public opinion.

King (assenting emphatically)—Your Ministers created that opinion. Your army, however, certainly fought bravely.

Emperor—But the Prussians had the discipline that mine has recently lacked.

King—Before and since 1863 we studied carefully the experience and inventions of other nations.

Emperor—Your artillery won everything. It is the finest in the world.

King—In the matter of artillery particularly we have utilized the experience of other nations.

Emperor—Prince Frederick Charles decided the event of the last battle, his army carrying our last position.

King—You err. It was my son who fought at Sedan.

Emperor—Where, then, was Prince Frederick Charles?

King—His army corps is before Metz.

The Emperor's self-possession apparently deserted him momentarily on receiving this intelligence. The King continued:

King—Have you anything to propose?

Emperor—Nothing whatever. I am a prisoner.

King—With whom, then, have I to treat?

Emperor—With the Empress. With the Government at Paris; I am powerless; can make no terms; give no orders.

King—Will Wilhelmshohe suit you as a residence?

Emperor—Yes.

The conversation was continued for a short time, the King expressing condolence for the Emperor's misfortunes. He at length withdrew with every mark of respect.

General de Wimpffen, in a recent letter, says the Emperor surrendered in a very cowardly manner at Sedan. He (General Wimpffen) proposed a movement which would have redeemed everything, but it was overruled at once.

PERPETUAL MOTION.—Henry Wickham, Jr., a young man of this city, has achieved, he thinks, the theory and practice of perpetual motion. Many will recollect the photograph of his machine, exposed at Andrew's dining saloon, and perhaps at other public places, last spring. It was given out that a half interest in the invention (a *caveat* only having been filed then) had been sold to Sam Buckmaster for seventy-five thousand dollars, and that the affair would soon be exhibited to the public at large. Since that time a full patent has been received by Mr. Wickham, and his machine has also behaved itself handsomely, working without cessation for months. The most essential portion of the machine consists of a hollow rocking lever, or beam, resembling the walking beam of a steam engine, except that it is bent at oblique angles in several places. Inside, this, are placed balls partially filled with mercury, the balls, once set in motion, roll down the interior of the hollow beam, in a vain search after a permanent level, for no sooner do they reach the lower end than the mercury in the spokes of the main wheel overcome their weight, the beam is forced up, and the balls are again impelled in their onward rush, only to be caught by the valve that is forced open from without and pushed into the upper arm of the beam or lever, ready to be hustled along their never-ending route.

A delicately adjusted weight and brake are attached to the machine and serve to regulate its motion, but it is in the hollow spokes and beams, and the balls of quicksilver, that the mysterious power is said to lie.—*Chicago Post.*

An Arkansas editor gives a brother quill driver this first-rate notice: "The volcanic, pimple-headed, blister-brained, owl-faced, spiked-nosed, weasel-faced, web-footed, peg-legged, lilliputian, foggy pettifogger of the *Democrat* does not like our personal appearance. Until this foul-mouthed, brazen debaser has been run through a sieve, a filter, scoured, scrubbed, swabbed, sponged, and disinfected, until he is a fit object to enter decent society, we will forbear having anything to say about him."

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

Engagement near Bruyers.

LONDON, Oct. 13.—A dispatch from French sources says an engagement occurred on the 10th inst., near Bruyers, between a body of French and Prussians. After a short conflict the latter retired with a loss of 30 killed and wounded. The French loss is not known.

The occupation of Orleans by the Prussians is not yet confirmed, though it is certain the French have fallen back along the left bank of the river.

Movements of the Prussians.

The Prussians are leaving Gournay and marching to Meslères. Turning from St. Quentin they threaten Amiens.

An engagement occurred at Mattegras yesterday between the Uhlans and Hussars; result not given. 800 Prussians and 500 Saxons have already occupied Gisors. The Germans appeared at Mont Didier, where a small detachment was defeated by the Franc Tireurs.

A telegram from Arlon, Belgium, dated last evening, says heavy cannonading has been heard to-day in the direction of Thionville. It is said the garrison at Montmedy has retreated to Stenay.

TOURS, Oct. 12, Midnight.—No news has been received from Orleans or Chateau Dun, whither reinforcements were sent last night. Gen. Cambriel reports having gained considerable advantages. Fifteen thousand Prussians are near Bruyeres.

The French fleet was still off Heligoland this morning.

Garibaldi has left Tours with Col. Traisoli for the seat of war. His exact destination is not divulged. It is intimated that he will take command at Orleans.

Negotiations for German Unity.

LONDON, Oct. 13.—Prussia is negotiating with the smaller States of Germany for national unity under Frederick, in place of confederation. The session of the North German Parliament will probably be resumed before the meeting of the Prussian Diet. Parliament will be required to provide means for the war and adjust certain questions springing from it. Elections for this body will probably occur the 18th of October and those for Deputies in the Prussian Diet eight days later.

LONDON, Oct. 12.—It is expected that Prussia, in view of her delicate relations with England in consequence of the latter's alleged violation of neutrality, will give both North German Ambassadors indefinite leave of absence, leaving only the Charge d'Affairs at London.

Revolution in Algeria.

It is now said that the revolution in Algeria is unchecked. In the Province of Constantine the insurgents have gained some advantage.

The Prussians Charged with Exaggerating Reports.

A correspondent of the *Standard* charges the Prussians with constant exaggeration. He writes that the number of men and amount of material captured at Strasburg should be reduced at least one-half from Prussian figures.

Alarming Spread of the Rinderpest.

BRUSSELS, Oct. 13.—The rinderpest is spreading rapidly throughout Belgium. Much alarm exists not only here but in Holland and Prussia.

Rome not the Capital of Italy at Present.

FLORENCE, Oct. 13.—Engineers say it will require at least two years to prepare Rome to serve as the Italian capital. The seat of government will therefore remain at Florence.

Prussian Account of the Battle at Metz.

LONDON, Oct. 13.—Particulars of the battle before Metz on Friday last have been received. The French made a sortie in force and after battle were driven back with tremendous loss. The Prussians took a great number of prisoners. Cattle in and around Metz are dying by hundreds from rinderpest. The bodies cannot be buried quick enough to prevent the epidemic spreading. The disease is spreading rapidly. French fire from the fortifications at Metz continues incessantly.

On Monday a Prussian Cavalry division drove 4,000 Mobiles across the Eure near Cherissy. The losses of the latter are heavy.

News from Paris Cheering.

LILLE, Oct. 13.—A balloon descended at Tournay to-day. News from Paris is most cheering. Popular ardor is unbounded. Soldiers are anxiously awaiting the Prussian attack and have no doubt of their ability to withstand it. Confidence in Trochu seems limitless.

Occupation of Orleans.

VERSAILLES, Oct. 12, via Berlin and London, Oct. 13.—Yesterday the French army of Loire was driven out of Orleans after a nine hours fight. Orleans was subsequently stormed. The Prussians took up their line of march with 10,000 prisoners. Their own loss is small. The Bavarians participated in the engagement.

Latest Election Returns.

CHICAGO, Oct. 13.—Returns from the Iowa election indicate a Republican majority of about 35,000. The Congressional delegation remains entirely unchanged.

The result of the election in Ohio seems to be a loss of two Congressmen to the Republicans—Schenck in the third, and McClurg in the fourth districts—and a gain of two—Perry in the first, and Foster in the ninth.

Both parties claim Indiana, in which State the Democrats gain two Congressmen—Manson in the 7th district, who beats Gen. Wallace by 400 votes, and Gooding in the fourth.

Fenians Pardoned.

The *Times'* Washington special says that the President to-day signed the pardons of nine imprisoned Fenians, Gen. O'Neil and Donelly heading the list.

CALIFORNIA.

The running race to-day at the Alameda track, three heats, three miles and repeat, were run, Mamie Hall winning. Time—5:47 4-5; 5:51 4-5, and 6:03 2-5. Kirby Smith and his owner, Mitchell, were ruled off the track after winning the second heat, a young man having sworn that arrangements had been made for selling the race. After being ruled out, the Judges decided the charge against him was not proven, and he was ordered to bring his horse back, but he refused to do so and, was accordingly fined $150 by the Judges, and barred from all tracks represented in the National Turf Association. The horses which run after the second heat were Compromise and Mamie Hall, May having been distanced on the first heat.

Vigilantes made an attempt to take Bryson from jail and hang him but were prevented by sheriff, who afterward liberated the prisoner and gave him half an hour to leave town, which he did with alacrity.

Two strong combinations have been made, both including interests in the Pacific Railroad, to secure the subsidies from Australia, New Zealand, Hawaii and the United States for the trans-Pacific steam line. W. H. Webb is the leader of one party and Ben Holladay of the other. Webb is backed by Sir Geo. Grey, late Governor of New Zealand, and is already preparing to start the *Nebraska* on her first trip on or before January 1st, 1871.

A SATANIC RACE IN MEXICO.—From the Nevada City (Mo.) *Times*, we take the following:

A gentleman was in our town yesterday who had just returned from Old Mexico, and had with him a boy about fourteen years of age that is almost as great a curiosity as the armless man. He is well formed in every respect except his feet, which consist of only two long toes, the great and small toe. The foot is cleft from the ankle, and forms the separate toes, each toe being about six inches long. The joints of the toes appear stiff from walking on them. The toes and foot, of which there is nothing but a heel, resemble the thumb and forefinger of the hand, both toes of the same length, and he can grip a piece of coin or paper with the ends of them somewhat as a crawfish would. He is very pleasant and intelligent. The gentleman with him said his whole family, father, mother, brothers and sisters, were all formed the same way, and they claimed to belong to a tribe in Central Mexico whose feet were all formed the same as theirs.

FRIDAY MORNING OCTOBER 14 1870

The Head Organization

A letter from New York to the Chicago *Tribune* gives a very graphic account of the doings of Tammany Hall the theory of its dominion its relations with the press and the details of its inside management As this organization is the only remaining power in the Democratic party and the sole nucleus around which that party can rally for a national effort it is interesting to note its characteristics and the manner in which it maintains its ascendency The present ring owes its success to the capacity of two adroit and unscrupulous managers, Tweed and Sweeney To their power to make combinations to their skill in organizing and their entire disregard of the requirements of honest dealing their present position and the success of Tammany are due Here is the way in which Tweed built up his power

> The city is divided into small election districts, and a ringleader placed in each, and woe be to him who did not cultivate his acre One by one the great offices of the city fell into the power of Tweed's ring and became a part of the same relentless machinery, the charities and jails were nurseries of voters and whippers-in, the District Attorney's office delayed or precipitated indictments as Tammany willed, the police courts punished with terrible sentences any betrayers or enemies of Tammany, every keeper of a gin mill, gaming table, dance-house or beer garden was admonished that in Tammany lay his only salvation, the emigrant boarding houses were governed through Tammany's Commissioners of Emigration an office which ought to be a Federal one; and thus, while Tweed was overawing Tammany within its walls—like another Louis XI cutting down the aristocracy,—his henchmen and [illegible] amongst the wards gentle Oliver the Barber, and Tristan the Hangman, were renewing the feudal system At the top sat Tweed to whom owed allegiance the eight proprietors of the twenty-two wards To each of these proprietors so many seignors of precincts were responsible and thus the system extended down to minute localities and individual groggeries If any agent was reckless, he was set aside, if he was rebellious, he was persecuted; if too bold or powerful to be intimidated or hushed, he was compromised with.

Tammany is said to be afraid of the newspapers, and for this reason has subsidized all it could Every formidable opposition paper that is started is bought by Tammany or its supporters pensioned Many have been started simply to compel the ring to buy them off at a great price, and have been successful, Tammany most fears the *Tribune*, a [illegible] always found incorruptible, but the ring is continually intriguing to drag Greeley from his chair and divert him from the field of active politics "The *Herald*," says this writer, "according to Tammany's superstition, is essential to them in the city of New York, and they have captured it completely by giving it $100,000 worth of printing, and by compounding, in some manner, with its proprietor upon a water front for his villa"

Of course the leading men of this organization lay great claim to "respectability" Under that they cloak all their rapacity and general rascality. They have succeeded in getting their city government into such a shape that they can control all the immense revenues for party purposes, and they have no scruples about doing it. All its subsidies, of course, are paid out of the tax receipts, and it is not uncommon for the ring to disburse in a single election half a million dollars for votes The writer above quoted concludes thus

> This is the history of the case as it stands at present. Tammany has the city government, it has the State government; it has the Erie Railroad, it has the judiciary under its thumb; it has the press, and all it has not is the respect of the timid people, the support of a lot of malcontents, and the Republican minority

Crime is not punished in New York, because the criminals are the associates and operators for the ward politicians, and these politicians are essential to an overwhelming party success So the course of justice is practically arrested. This is the organization that controls the whole Democratic party of the country in all national matters, which makes its platforms, nominates its candidates for President and dictates its policy Oregon Democrats say they don't like it, but it is no use for them to grumble They are compelled to submit and vote in national elections as Tammany directs

By the table of expected "Democratic gains" which the *Herald* published some time ago, a gain of thirteen Congressmen was figured up in the States of Ohio Pennsylvania and Indiana The actual gain seems to be two members This will make no perceptible difference in the status of the next Congress Making all due allowance for the loss of districts here and there by the Republicans in States which are still to hold elections, the Democratic strength in the next Congress will be about a dozen greater than in the present one That is, in the next Congress they will have seventy-eight, or at most eighty members, while the Republicans will have the balance of the two hundred and forty three or more than two-thirds This is rather too large to be healthful, but as we are used to it we shall try to get along

Had Whiteaker's bill to prevent importation of voters and fraudulent voting been the law of the land in the last June election, Bill Newby of Yamhill would have received about one hundred votes fewer than he did receive in that election Had such a law been in operation it would have been dangerous for Newby's man, Gaston, to come down to Portland on the last days of February and take twenty to thirty men to Yamhill in one lot It would also have been dangerous work in Douglas county for the Democratic managers to bring in a lot of men on pretense of working them on the Coos Bay road and thereby defeating the Republican county ticket Gov Whiteaker is striking a heavy blow at his own party

It has been decided by the Democratic majority in the Legislature to disfranchise every man who comes to the State and labors on a railroad or other work of internal improvement. Now let all be disfranchised who come into the State to engage in any other useful industry, and let none be allowed to vote save those who loaf around "corner groceries" and vote the Democratic ticket The political power of the State will then be taken out of the hands of the "dangerous classes" and intrusted to the virtue, the intelligence and the bed rock element of the country

One feature of Whiteaker's bill to regulate elections is designed to punish Democrats who sell their votes The *Herald* says that its party friends are exceedingly inclined to "sell out" on election day, and that they went off to the market last June like so many glass-eyed cattle" Such, therefore is the moral condition of the Democratic party that new and more severe penalties are required for such conduct If a Democrat won't vote the "regular ticket" why a law must be passed to compel him.

Our Model Legislature

The present Legislature of Oregon has for some weeks sadly needed an eulogist and now comes the *Herald* thus extolling that body Listen

> The present Legislature has already placed itself upon record as the best one ever assembled in this State And it promises before its close to insure us legislation of a beneficial and much needed character

"The best Legislature that ever assembled in the State ought to have been able in the space of thirty days to give some evidence of its [illegible] But the *Herald* after premising as above found itself unable to specify any good things accomplished by the body Therefore it was compelled in the very next sentence to come down from its high assertions and say that the Legislature merely promises to do many good things After floundering on further that paper at last finds a single act or series of acts performed by that body which it can commend and these acts are none other than the wanton and outrageous exclusion of Republican members from several counties from their seats in the two branches of the Legislature That is all that has been done so far save only the gratuitous insult to General Sherman The greater part of the time of the session has been consumed in attempts to grab the school lands in discussions of such enlightened measures as Amis' queue bill, and in making a stultifying contradictory and assinine record on railroad matters No measure has yet been passed, or even seriously considered, which is calculated to benefit the State Very little legislation is needed, and the little that is needed will not be provided The remainder of the session will be spent in trying to devise ways and means to keep the Democratic party in power against the will of the majority of the people which, it is perceived will be against that party in the next election And for the above, which will be the sum of the business of the session the State will have to pay about twenty thousand dollars for mileage, per diem and expenses.

Referring to the insult offered by the Oregon Legislature to General Sherman the Chicago *Republican* suggests that General Lee would not have been treated in the same manner, and leaves the inference to every patriotic mind

Robert E Lee is dead The country which educated and nurtured him and which he attempted to destroy will forever have reason to wish that he had never been born

TENTH ANNUAL STATE FAIR

Fourth Day

SALEM, Thursday, Oct 13

The fourth has generally been considered the great day of the Fair, and this year proves no exception to the rule, so far, at least, as the crowd in attendance is concerned It is estimated by good judges that no less than 15,000 people were on the ground at 2 P M If so, it was, without question, the largest assembly ever gathered at a State Fair in this State I am inclined to place the number at least 3 000 higher than that of last year Many then put the estimate at 15,000, but I think that figure was far too high There has been a regular crush in the Pavilion Some of the departments had to be fenced off to enable the judges to go on with the examination of the articles The work is far from being finished, though the Judges have been busy at it since yesterday noon It is not possible yet to undertake any general mention of the premiums awarded in the Pavilion, and perhaps it will not be practicable at all.

STOCK PREMIUMS

The following are a few of the most notable premiums awarded to day on horses

For two years old roadsters, stallion, first premium to John Chase, second premium to Sol Durbin

One year old roadsters, stallion, first premium to Put Smith's young "Pathfinder," second premium to J A Craven

W W Brooks exhibited a fine colt which the judges recommended should take the same premium as the second.

For brood mare roadsters, first premium to N P Newton

Jerry Welsh took the first and C Neal a second premium for four year old roadsters

Jerry Welsh took the first premium for roadster filly, three years old and a second premium for a two year old roadster filly

John Baxter first and D Robbins second premium for yearling colts

Mr A Cornutt took the first premium in the walking trial and J M Hassaler the second The distance walked was one mile Time—10.36

For buggy horses, J J Welsh first, and H G Hadley second premium

For buggy roadsters, Put Smith's Pathfinder first premium, and James Pearl's Sligart the second

For three-year old thoroughbreds, G F Baskett obtained the first premium, and F X Matthieu the second

I will be able to morrow—not sooner—to make mention of further premiums awarded to horses, cattle, etc

THE RACES

There were two handsome races this afternoon—the trotting for three year olds in harness, best two in three, and the running for three year olds single dash of a mile

For the first race J J Welsh entered the filly Alice Jones, J Noble entered Red Hot, and H G Hadley entered Jim The first heat was taken by Alice Jones in 3 12½, with Red Hot second, and Jim third The next two heats were won by Red Hot, in 3:13½ and 3.12. Alice Jones got the second premium

For the running race for three year olds single dash of one mile, S W Thorpe entered Jim, W G Scoggins entered Annie Miner, G J Baskett entered Dixie, and Sol Durbin entered Jack Miner The colts got off pretty well together, and made a pretty race of it the first half mile, then Dixie who had been in the rear, began to lead, and he and Jim had a close run till well down the home stretch Dixie however, came in first, winning the race and purse in 1 55 The concluding race was a trotting match, two mile heats—best two in three The entries were Webfoot Maid, Put Smith's Roan Mare Richmond, and Shoo Fly Richmond got the first heat through jockey driving—6 22½—the mare being second There was a good deal of disgust expressed both in the judges stand and on the track at the manner in which the race was driven The second heat the mare came home in 5 42 distancing both the horses The race and premium was given her though one at least of the judges was against it on the ground of jockey driving in the first heat The two horses then went the third heat to decide which should have the second premium Richmond made two miles in 5 40½ beating the mares' time by one second and a quarter notwithstanding she had distanced him before in 5 42 The judges announced in very decided terms that no more premiums would be given except upon fair driving

The programme for to morrow will embrace nothing but the payment of premiums and the closing out of all business of the Fair

The first passenger train to the Salem depot went through at 11 30 A M to day and until 3 P M trains were run each way every half hour Large numbers of people embraced the opportunity to have a ride on the cars

A good many people have gone home this afternoon and evening

The dust has been intolerably bad and it is doubtful if the wholesale dirt-eating in which people are compelled to indulge does not overbalance all the pleasure of the Fair

Both the theaters in town and the circus on the Fair Ground are playing nightly to crowded houses

From the Montana *Pick and Plow* Sept 23

Charles E Eggleson, one of the division of the Big Horn Expedition camped in the vicinity of the grist mill of McAdow & Bro, was accidentally shot through the lungs, last Monday, by a messmate named Bishop The unfortunate man was taken to the Fort Ellis hospital, where he is kindly cared for, and notwithstanding the dangerous character of the wound, is, we are informed by Dr Carridge surgeon of the expedition, in a fair way of recovery This is the second accident by shooting which has occurred in the same mess

A MODERN TRIP TO THE OREGON STATE FAIR

EDITOR OREGONIAN:

[illegible] is an old aphorism We came to Oregon behind an ox team, have visited every State Fair in conveyances according to the development of the times and this year through the courtesy of Hon. B. Holladay President of the O. & C. Railroad, we were enabled to visit Salem in his elegant car

STARTING

We arrived in time at the ferry boat at seven o'clock and amidst the throng of passengers and hotel coaches carriages and drays crossed the river Arriving at the depot we found twelve new cars awaiting its living freight to waft it on to Salem with the speed of the powerful iron horse They were soon filled and three hundred men women and happy Oregon children were comfortably seated awaiting the cry of the conductor "All aboard" to start At the proper time they started off Immediately after the departure of the regular morning train the President's car was hauled along side Its external appearance is superior to the celebrated Pullman palace cars It is fifty one feet long and ten and one half feet wide at one end is a kitchen containing a modern range water tank cupboards and all the modern improvements to enable the cook to do justice to his culinary art Joining the kitchen is an elegant dining room Separated by a hall is a parlor full width of the car furnished with elegant sofas, luxurious easy chairs carpeted regardless of expense, a perfect *boudoir* of a place Then comes another hall separating the parlor from the bed rooms two in number furnished with marble wash stands elegant bedsteads etc, etc The finish of the whole car is walnut and Oregon maple which adds to the neatness of the appearance of everything Where ever appropriate silver and gold ornaments abound It is curtained with green reps The windows are of heavy French plate glass *double* to keep out the dust The car is mounted on modern six wheel trucks and rides as easy as a rocking chair It was built by the celebrated car builder J P Laird and is a monument of his skill in the car building line

At 8 o'clock this car started for Salem containing Mr Holladay and his friends, who he entertained in his usual fine and princely style, with every delicacy of the season and on our arrival at Salem, which was made in three hours we all took a farewell of this elegant car and Ben Holladay, who is doing more for Oregon than any man who ever came here before If the *Herald* wishes to be convinced of this, let the *simple* editor of that delectable sheet visit the Fair and listen to the talk of the thousands of people assembled here now.

THE TERRITORIES

Several attempts at incendiarism have recently been made in Olympia Guards are now stationed to avert the danger.

The Olympia *Tribune* says it is rumored that the cutter *Lincoln* is to remain on Puget Sound until a new cutter is sent to take her place.

Citizens of Cheyenne and Omaha are strongly petitioning the General Government to abrogate the Indian treaties which now close Eastern Montana to immigration

A Montana paper has the following in regard to the late boreal display About 12 o'clock last evening there was a boreal display surpassing anything of the kind we ever saw or heard of. We have no time to attempt a description At the hour stated the entire heavens presented themselves as one vast, burning vault tremulous lines of cherry red luminosity, starting by thousands from all parts of the horizon, shot upward, intensifying in vividness as they ascended, and all converged at the very zenith with blinding brilliancy Beneath the resplendent dome small print could easily be read

There are indications that the South is waking up to the importance of fostering manufactures The people are beginning to discover that it is not economy to send cotton to England or broom corn to the East to be manufactured into goods that they must eventually buy back again The Jackson (Miss) *Pilot* says

In this as in cotton, we can raise the raw material in abundance, and of fine quality, for export But we don't see that in taking our broom corn away to be manufactured, and bringing the brooms back again, is where we lose the $1 000 000 and pay tribute to more enterprising people Let our people wake up to this important subject, go to work and do something besides talk about it. Let us look at the subject in all its phases and bearings and like a brave people determined to be free from the annual tax we pay to enrich other countries let us strike for our own independence of the workshops of the rest of the world

There is no "revenue reform" nonsense in that talk

ASTORIA ITEMS.—From Astoria, Oct 12th, we get the following intelligence

The steamer *California* arrived from Portland this morning 3 A M She took on over 400 cases of salmon and sailed again at 4 A M for San Francisco

The U S steamer *Shubrick* has taken up all the buoys in the Woody Island channel and replaced them with spar buoys for the winter To day she went down to the bar to change the large outside buoys From there she will go to Shoalwater Bay to change the buoys there.

During this fine weather we are having considerable street grading done, which will be a great improvement, long and very much needed

We were very agreeably surprised this evening after dark by the arrival of our very distinguished hunting party no less than Count Pourtales and Messrs. Stroup and Jones who came through from Portland in six days They killed several elk and dried the meat, which they take up the river in the morning with them They report having a good time. They were out two nights without any blankets, and had a very good time generally Several of our citizens were introduced to the Count, and passed a very pleasant evening with him They all speak very highly of him

BUILDING AND LOAN SOCIETY.—Better than any savings bank, to the mechanic and laboring man, would be a building and loan society in this place. The financiers who would take the lead in getting up such an organization could also make a very handsome thing of it We observe that the Pioneer Land and Loan Association of San Francisco declared a a regular monthly dividend of one per cent, payable on the 5th, and have since declared an *extra* dividend of one-tenth of one per cent per month for the past six months, payable on the 10th. There are hundreds of laboring men, mechanics, etc, working in this community on regular salaries ranging from $75 to $125 per month, whom we know would gladly avail themselves of the opportunities offered by such an organization to buy a lot and build a small house for themselves, who are now compelled to pay rents that absolutely double the amount of interest they would be required to pay to a building and loan society, and there are a number of citizens whose interests should be fostered by the more wealthy classes

PASSENGERS.—The following passengers sailed for Portland yesterday, on board the N. P. T. Co's steamship *Oriflamme* from San Francisco: Judge Wm Longbridge, A Hine, Mrs Cocke and sister, Mrs G W Flanders, two children and nurse, Mrs R Lubelski and two children, Mrs M [illegible] and two children, Mrs McConnel and child, Mrs Warbass and child, John Hurey, H [illegible] A W Shaw and family, W C [illegible], Mrs E Huntington, Miss M Edwards, M Rinn and family, W W Dougherty, Vincent S Lawler, Mrs W. R Josselyn and family, Miss A H[illegible], Mrs James Steele Col S Stevens, Henry Ryan, A B Holyoke, E Cahalin L M Starr, E [illegible], S H Jones and family, Miss R [illegible], Jas W Troup, Rev P Pinkerton and wife, [illegible] Storey and wife D M Brown, Francis Tyson, Lieut W P Rice, A Short and wife, G Kellogg and wife, J G Flowerdew, E Allen, Miss J Koran, Mrs L Stetson and daughter, J J Young, E Jenks, Wm Watson, E Conner and wife.

THE AURORA RESTAURANT feeds everybody at the State Fair Yesterday over two thousand [illegible] were served, and they were got up in sumptuous style Their chickens and nice things are give out and the bill of fare and the manner in which it is served is described to us as being quite sufficient to create an appetite even on the ebb of death

[illegible] SEED.—Hon A. J. Dufur has [illegible] bushels of choice white and red spring wheat cleaned up at McLaren's mills, in this city within a few days past which has been forwarded to the Commissioner of Agriculture at Washington. This wheat will be the best lot which ever reached Washington "Two to one on that!"

IN TOWN.—Col Joe Meek arrived in this city yesterday and is stopping at the Cosmopolitan. He never fails to interest in his conversation, and always has plenty of hearers about him, attentively listening to his many narratives of the bygone days of Oregon. For a man of his years, Col. Meek is exceedingly smart.

ACCIDENT.—Mr G W Pratt of Chicago, a carpenter by trade accidentally fell while at work at the late residence of Mr J A Strowbridge on Second street, yesterday breaking both bones of his left arm short off near the wrist. The wound was dressed by Dr Chapman, but the patient suffers extreme pain from his injury.

[illegible] WHEAT.—For ten days past an average of fifty wagons containing an average of 30 bushels each of wheat have unloaded in this city Eighteen hundred bushels per day, gives a total of 18 000 bushels which is only a moiety of the arrivals for the week

FOR VICTORIA.—The N P T Co's propeller *California* will leave for Victoria and northern ports at 4 o'clock P M to day, instead of 5 as previously advertised She will carry fully 300 tons of freight

APPOINTMENT We learn that Hon T B Odeneal, of Corvallis a veteran in the cause of liberty and justice has been appointed Assistant U.S. Assessor for the Second Division of Oregon

VACANT PLACES FILLED.—Several stores on Front street that have remained unoccupied for months past, have quite recently been refitted and taken by new tenants

GRACE PERIOD. The three days of grace for making monthly returns to the U S Assessor's office, ran out last evening

WATCH FOUND.—The owner can have it by applying at the Ferry boat proving property and paying for this notice

The last [illegible] GEN SHERMAN [illegible] Philadelphia [illegible] of [illegible] "Democracy [illegible] scarcely to be spoken of [illegible] we were not [illegible] the upper house of the Legislature of Oregon. This eccentric body has [illegible] its [illegible] down the House resolution inviting General Sherman to the capital of the State How much the Democracy of other States may unite in praise [illegible] it appears that Oregon cannot forget the march of the great leader through [illegible] and the death blow dealt against [illegible] in those parts. "The civil service is under no obligation to the military" says the upper house of the Oregon State Legislature and with this lofty explanation of its action has turned its haughty back upon the General who can scarcely recover from the rebuff

THE OREGON LEGISLATURE

Sixth Biennial Session

HOUSE—Evening Session

SALEM Thursday [illegible]

The House met at [illegible] P M the Speaker [illegible] the chair

The following members being absent Messrs Alexander Burnett Clark Carson [illegible] Galloway Carlisle Drain DeShiel Earhart Fulton Grant Hutchinson Helm Hunter Hare Lockhart McLean Mc[illegible] Mills Olney Ostrander O'Regan Porter Quimby Thompson [illegible] Wells and Whiteaker [illegible] the Sergeant at Arms was dispatched for the absentees and after some delay a quorum was obtained and the House proceeded with the business

[illegible]

Mr De[illegible] from the Judiciary Committee reported back House bill No 53 an Act to prevent fraudulent [illegible] with an amendment [illegible] passage

Mr Davenport moved to strike out [illegible] Section 5 which prevents persons employed on any railroad [illegible] from either gaining or losing a residence when so employed

Mr Helm [illegible] the amendment will not prevail [illegible] bill to prevent fraudulent [illegible] was reported [illegible] voting and [illegible] it is designed to prevent [illegible] from voting [illegible] and he [illegible] man from Marion (Mr Davenport) should want to strike out that section of the bill

Mr Lockhart [illegible] believe in throwing all proper safeguards around the ballot box, but [illegible] disfranchising a man because he is at work upon a public improvement Under the bill if passed without the amendment [illegible] a man might be disfranchised who had lived for twenty five years in one precinct if he should be engaged upon a railroad or some public work It is no safeguard to say that such men shall not work upon public [illegible] unless they give up the right to vote or that men shall not vote if they engage in a certain kind of work It is bad policy to make such laws It is an attempt to discourage public improvements—to retard the prosperity and development of the country

Mr [illegible] I hope the amendment will not be adopted I think that clause is the best part of the bill It will prevent all the importation of voters which has given us so much trouble This is what it is intended for We have had enough of [illegible] elections to see the evils of this thing and I hope this House will not strike out this section

Mr Hare was as anxious as any Democrat could be to guard the ballot box, for he believed that if there had been no illegal voting during the past four years there would now be a different majority in either branch of the Legislature He had no doubt that the gentleman who had introduced the bill desired to prevent fraudulent voting If such was the wish of the Legislature why not adopt some less objectionable means The real point to be aimed at should be to ascertain the intent as to the place of residence entertained by the voter at the time of voting

Mr Whalley sustained the motion to strike out the section He was earnestly in favor of the guarding of the ballot box but thought the proper way to do it was by the adoption of a registry law and the ballot system If such a system were proposed no Republican would oppose it.

Mr Amis favored the amendment and reminded Mr Whalley that he was not of the majority and therefore not entitled to dictate the business of the House He thought the minority wanted to strike out the section so as to enable Ben Holladay to colonize railroad laborers throughout the State. He feared that the gentlemen of the minority would never realize the fact that the Democratic party is running the Legislature at the present time [Laughter]

Mr Apperson favored the motion because he did not believe in disfranchising any man who is honestly seeking employment

Mr Hare offered to amend the fifth section by adding the words "Provided this section shall not apply to any person who intends to become a permanent resident of any county in the State

The motion was ruled out of order

Mr Hayden regarded the bill as having no partisan bearing but as simply designed to purify the ballot box It would not disfranchise any one for men employed anywhere may go home and vote He did not believe in the ballot system of voting as it had not worked well in California and Missouri

Mr Davenport remarked that in framing laws to accomplish a good purpose, there is sometimes danger of overreaching the end to be attained Instead of simply remedying an evil a greater one is sometimes inflicted by the very remedial measure used He believed that Section 5 if allowed to remain would disfranchise a large class of people—the day laborers—who have as much right to vote as men who have homes and permanent residences Now, when we are inviting railroad men into the State to engage in resources for building up the State would it be right to exclude such men from the polls? He asked the members from Southern Oregon if they were ready to say that the men whom they invite to build their railroads shall not vote

Mr Helm was not astonished that Messrs Davenport, Whalley and Hare desired to strike out the section That would leave the gentlemen free to engage in the importing business He opposed the motion as attacking the sacredness of the ballot-box and expressed his position to the registry system and voting by ballot

Mr Olney opposed the motion He thought the section a good one, simply extending the principle of the Constitution which prevents persons in the military service from gaining or losing a residence There was no disfranchisement in this bill, as persons temporarily absent from their homes could return home and vote He believed it right to say that men working for a short time in a county should not vote in that county

Mr Davenport thought Mr Olney illiberal to the laboring class

The amendment was rejected by the following vote

Ayes—Messrs Apperson Dunbar, Davenport Harrison, Holman, Hare Lockhart Paquet, Quimby, Starkweather and Whalley—11

Noes—Messrs Alexander, Amis, Burnett, Caldwell Clark, Comegys Calloway, Carlisle Drain DeShiel Elkins Earhart, Fulton Grant, Hutchinson Helm, Hunter, McLean, McCoy Munkers, Olney Ostrander, Porter, Rader Shuck, Thompson, Hutchinson, Waldron and Mr Speaker—30

Mr Hare moved to add to Section 5 the words "Provided that this section shall not apply to any person who shall have intended to gain a permanent residence in any county of this State,"

Mr Helm—I hope that amendment will not be adopted It will cripple the bill

Mr Hare urged the adoption of the amendment and asked how any one who did not wish to exclude laborers from the polls could refuse to vote for the amendment.

Mr Amis—I should like to ask a question Suppose a man should come here ninety days before the election would the amendment exclude him?

Mr Hare—The section might do so, but the amendment is designed to avoid such an effect. Under the section as it stands a man might go into a county to remain permanently but if he should happen to take employment for the first few months of his residence there upon some railroad, for such time he would be disfranchised unless he could afford to expend the time and necessary funds to take him home to vote The bill is an unjust discrimination against the laboring man

Mr McCoy offered to amend so as not to have the section read persons who come from the States with the intention of remaining but as his amendment was not satisfactorily prepared he withdrew it

Mr Hayden thought the bill good enough without the amendment which he said did not change the sense of the bill particularly From his knowledge of the members who had talked about the rights of laborers he could not think they meant to indulge in demagoguing but he feared that when the people should read what they had said such a construction might be put upon their language

Mr Lockhart—Our State disfranchises a man who has committed a crime but never before have I heard of a proposition like this to disfranchise a man because he engages in work upon a public enterprise There must be some reason for this measure other than merely for the protection of the ballot box This is a direct blow at the rights of the laboring man The bill proposes to disfranchise him if he works upon railroads and certain other improvements of a public nature No other cause is assigned for this exclusion from the polls—no other reason under Heaven Here you propose to deprive the laborer of the rights of citizenship whilst you do not exempt him from military duty or from taxation You seek to debar him from the right of suffrage solely because he is engaged in a laudable enterprise—one of those great public enterprises that bring commerce and prosperity to our land And because we oppose such an obnoxious and undemocratic measure we are called demagogues I undertake to say that in all the legislation of christendom such a proposition is without a precedent or a parallel

Mr Apperson asked gentlemen who had talked of demagoguing to consider how their own speeches would read He regarded Mr Hayden as inconsistent in some of his remarks He Mr Hayden had opposed striking out section 5—saying that it did not disfranchise any one and afterwards had opposed Mr Hare's amendment because he wanted to disfranchise men who work ed on railroads The amendment should be adopted so as to allow persons coming from other States to vote notwithstanding they may engage in work upon railroads or public buildings as it is not to disfranchise persons who may remove from one county to another because they can get more profitable or permanent employment It costs money to travel in this country and men can not always afford to spend the time and money to go to a distant county to vote

The amendment was rejected and the bill was ordered engrossed

Mr Hutchinson from the Committee on Counties reported a bill to incorporate the town of Astoria [illegible] which was read the first time

On motion the House adjourned

SENATE—Morning Session.

SALEM Thursday Oct 13

The Senate was called to order at 8 30 A M by President Fay

[illegible] all the members were recorded as present

The Journal of yesterday was read and approved

Mr Crawford [illegible] committee [illegible] S J M [illegible] reported in favor of printing 800 copies of the accompanying documents

Mr Mosher moved to amend by publishing 800 copies of the History of Oregon

[illegible] amend by printing 800 copies of Mr Spaulding's letter

The amendments were lost

Mr Cornelius moved the publication of 800 [illegible] the cost of printing that number would be but little more than for printing 500 and it would be a matter of general interest

Mr Stout opposed appropriating money for this purpose He thought the appeal should have been made to Congress the party charged with the justice

The [illegible] Federal [illegible] S B [illegible] bill [illegible] the construction of a wagon road [illegible] to Dalles City [illegible] moved to put the bill upon its final passage [illegible] every member was prepared to vote on the measure without discussion as the bill had been [illegible] passage [illegible]

At the request of Mr Cochran the amendment was [illegible]

The amendment [illegible] unless Congress should declare that the grant was exclusively for school purposes

The bill passed Ayes—Baldwin, Brown of Baker Burch Hendershott, Holtzclaw Lewellen Mosher New by Stout Strahan Thayer Trevitt and Mr President—13 Nays—Cochran Cornelius Crawford Moores Patterson Powell—6

The Senate resumed the consideration of the memorial

Mr Cochran addressed the Senate favoring the publication of the documents accompanying the memorial proposed by Mr. Spaulding He referred to the reflections cast upon Dr Whitman by Ross Browne's report as unjust and that it would be right to publish the truth, as he believed Dr Whitman was a good man

Mr Trevitt asked if that was all the report proposed merely to vindicate Dr Whitman's character If so he would not oppose it

Mr Cochran replied that was all the memorial proposed He spoke in high terms of Dr Whitman and Mr Spaulding Mr Newby [illegible] Dr Whitman in 1843 and it was a mistake that he brought in a large immigration that will [illegible] Dr Whitman was a good man yet the Doctor worked for himself as an untiring man making money for himself Many things in that memorial were not [illegible] many things there recited were not true He moved the indefinite postponement of the resolution

Mr Burch said the publication was to vindicate Dr Whitman [illegible]

[illegible]

Mr Strahan [illegible]

[illegible]

Mr Mosher [illegible] Catholic Church [illegible]

The resolution was indefinitely postponed

Ayes Messrs Baldwin Brown of Baker Hendershott Holtzclaw Lewellen Mosher Newby Powell Stout Strahan Trevitt and the President 12

Nays Brown of Marion Cochran Cornelius Crawford Holtzclaw Moores Patterson [illegible]

On motion of Mr Cochran the papers were returned to Rev Dr Spaulding

Mr Holtzclaw offered a resolution that no bills be introduced in the Senate after Saturday the 15th which was lost

S R N [illegible] Committee [illegible]

Mr Strahan [illegible] Judiciary [illegible]

Mr Newby [illegible] amend the 8th [illegible] law

SECOND READING [illegible] PORTLAND

Mr Stout moved an amendment allowing the city to construct and not purchase gas and water (The bill allows the city to incur indebtedness to the amount of $3[illegible])

On motion of Mr Stout the bill was ordered engrossed and read the third time to-morrow

SECOND READING OF BILLS

S B 47—To attach Tillamook county to Yamhill for judicial purposes was read

Mr Cornelius moved to amend by adding after the word judicial [illegible]

Mr Newby thought [illegible] Tillamook [illegible] purposes and he did not believe the people of that county desired it

Mr Cornelius—The people of Tillamook have petitioned for this and how can the gentleman assert they do not desire it He was elected to different persons from the men here who were sent here from Yamhill and who replace him [illegible]

Mr Newby had seen papers from Tillamook who opposed this part of the petition He said that Mr [illegible] had in committee as he understood agreed to the law upon which he obtained his seat

Mr Cornelius replied that he had agreed to the basis either first or last He claimed to represent Tillamook and knew that they did desire to be attached to Yamhill His reason in his heart is that Tillamook is Republican and would settle his hash politically

Mr Strahan thought that Mr Cornelius' hash was settled so far as Tillamook is concerned [illegible] being so anxious to get rid of that portion of his constituency

At the request of Mr Moores the petition was read It was signed by twenty five persons and asks to be attached to Yamhill only for judicial and election purposes

Mr Cochran referred to the number as small that had signed the petition There were reasons for attaching Tillamook to Yamhill for judicial purposes They were inconvenienced attending the courts, but would not be when voting except in transmitting the vote of Tillamook county

The amendment was lost by a strict party vote

Mr Newby offered an amendment to the bill defining the boundaries between Clatsop and Tillamook

The amendment was adopted

On motion of Mr Stout the resolution was made the special order for 9 A M to morrow

THIRD READING OF BILLS

S B 45 election law was taken up when at the suggestion of Mr Mosher that a bill of a similar nature had been introduced in the House the bill was for the present laid on the table

Mr Stout moved to allow his colleague leave of absence to day

The motion prevailed

S B — to create a Board of Equalization The bill was passed

S B 19 to create the office of Commissioner of Lands

President Fay inquired if the bill was printed

Mr Burch replied that it was

President Fay inquired if all State lands were sold at $1 25 per acre?

Mr Hendershott—That provision does not include swamp and overflowed lands

President Fay thought there ought to be a provision to allow a person to pay the full price in making the application as by implication a title cannot be obtained in less than two years and he asked and obtained the consent of the Senate to amend so as to allow payment at the time. Also an amendment offered by Mr Moores to charge ten per cent in deferred payments, was accepted by President Fay and the amendment was then adopted

Mr Baldwin thought this bill unconstitutional as certain State officers were constituted Land Commissioners for the sale of lands in sec 5, art 8 of the Constitution

Mr Stout gave this the same construction as the clause making the Governor Superintendent of Public Instruction

At the suggestion of President Fay the clause in the bill was read providing for a supervision of the Board specified in the Constitution, and as he thought a mere agency created by this bill

Mr Baldwin—While the Governor is Superintendent of Public Instruction there is a provision for creating that office This is a new office for which there is no provision.

Mr Burch stated that he understood that the Governor of the State desired this bill passed and that he believed it Constitutional

Mr Cochran opposed the bill on account of the rider (the office at La Grande) He said the State could save a thousand dollars and the expense of the office by leaving out that part of the law As it now stands it will cost the State about $1,400 He said it may be a sharp might shirk the responsibility here and vote for a measure they know to be wrong leaving it to the other House to amend or the Governor to assume the onus

The bill passed Ayes—Baldwin Brown of Baker Burch Hendershott Holtzclaw Lewellen Mosher New by Stout Strahan Thayer Trevitt and Mr President—13 Nays—Cochran Cornelius Crawford Moores, Patterson and Powell—6

On motion of Mr Mosher H B 2—Coos Bay Wagon Road—was taken from the table and the bill passed Ayes, 25; noes none

On motion of Mr Stout, S B 11 was made the special order for to-morrow at 11 A M

On motion of Mr Mosher, S B 43 was taken from the table It is a bill to amend the law relating to executors

Mr Cochran thought the only change in the law was allowing the will of the testator to permit the executor to act without giving bonds

The President—That is all the change Before this all executors, notwithstanding the will of the testator expressed—

Mr Stout understood this bill to settle the vexed question so that persons giving bonds could several of them write and jointly give the amount of the bond which is at the present time the custom in Multnomah county

On motion of Mr Stout the bill was considered engrossed and read a third time

Mr Cochran considered that persons in their last sickness might be induced by undue influence to make provisions of this class exempting persons from giving bonds

The President said a noted citizen of Jackson had died leaving good men as executors, yet at great inconvenience they were compelled to give bonds

Mr Stout thought that the same objection presented by the Senator from Lane would apply to making a will under a will the testator could give all his property to his executor and he thought no legislation could guard this question, as all were subject to human frailties The bill passed

Ayes—Messrs Baldwin Brown of Baker Burch Holtzclaw Lewellen Moores Mosher Newby Stout Strahan Trevitt and the President 12

Nays—Messrs Cochran Cornelius Crawford Hendershott Patterson and Powell—6

On motion of Mr Mosher S B [illegible] was taken from the table considered engrossed and ordered read the third time to-morrow

On motion of Mr Stout S B 33 relative to reimbursements was ordered engrossed and read third time to morrow

On motion of Mr Mosher the rules were suspended and S B 6 to amend the Code of Civil Procedure was read a third time

On motion of Mr Strahan the bill was recommitted with instructions to correct the phraseology of the bill

Mr Trevitt moved to amend Rule 1 so that the Journal shall be [illegible] a special [illegible] appointed by the President

Mr Cognell [illegible] opposed this rule He thought the clerks as competent as a committee of three The Senate could suspend the rules every morning

Mr Trevitt was not tenacious about this matter but thought it would expedite business

Mr Stout doubted the propriety of [illegible] He said that [illegible] the committee felt [illegible] they might [illegible] mistakes

Mr Trevitt—I will add three to the clerks [illegible] doubt the competency of the clerks

The amendment to the rules was lost

Mr Trevitt introduced S B 53 amending the law relating to [illegible]

A motion made by Mr Trevitt [illegible] the rules [illegible] second time was [illegible]

The usual number of copies of the bill were ordered printed

A so by the same S B [illegible] amendment to assessment law so that [illegible] allowed for indebtedness owing outside of the county where the property is located

On motion adjourned until 8 o'clock A M to morrow

HOUSE—Morning Session

SALEM Saturday Oct 13 1870

The House was called to order at 8 A M by the Speaker The following members failed to respond to their names Messrs Apperson Dorris Davenport Elkins Earhart Hutchinson Helm Hunter Lockhart Mc[illegible] Munkers Mills Olney Ostrander Porter Quimby Starkweather Savage Wells and Whiteaker

The Sergeant at Arms was [illegible] to bring in the absentees After some delay a quorum was obtained

Mr Hunter—I move that the House adjourn until Monday morning at 9 o'clock

Mr Dorris—I wish to call attention to the fact that the Constitution prohibits one branch of the Legislature from adjourning longer than three days without the concurrence of the other branch From now until Monday will be four days and I think we have no power to adjourn for so long a time

The Speaker—To-day will count as a session and there can be but three days between to-day and Monday

The motion prevailed by 20 ayes to 8 nays a division and the House was declared adjourned

AN EXTRA SESSION

After some private discussion among members as to the propriety of the adjournment the Speaker took the chair again [illegible] the House to order [illegible] members [illegible] the House are requested [illegible] here [illegible] Saturday at [illegible] A M

Mr [illegible] House cannot adjourn for [illegible] days [illegible]

Mr Hare—The House has finally adjourned until Monday morning at [illegible] an compelment [illegible] any [illegible] present [illegible] after the vote [illegible]

Mr A[illegible]

[illegible]

Messrs Burnett Caldwell Clark Carlisle Davenport [illegible] Munkers O'Regan Quimby and Whalley

Mr Alexander [illegible]

[illegible]

Mr Fulton—I would move [illegible] reconsider the vote of adjournment

Mr Hare [illegible] that we have either to declare that Sunday is not one of the working days [illegible] adjournment [illegible] day [illegible] legislative days [illegible] the session

Mr Helm—I don't think it is a working day

Mr Hare—I am willing to take that view of it [illegible] a view [illegible] taken

The Speaker—[illegible] the House adjourned [illegible] morning [illegible] views [illegible]

Mr Whiteaker [illegible] circumstances of the adjournment [illegible] a few suggestions [illegible] the House has adjourned until Monday [illegible] I was not present and do not know the circumstances [illegible] he adjourned [illegible] I would suggest that no attention be paid to that adjournment This appears to me the most ready way to get out of the difficulty The House might now be called to order and proceed with the usual business I have in my legislative experience known instances in which it became necessary to disregard entirely [illegible] If [illegible] we disregard the adjournment of this morning it seems to me that we may thereby obviate all the difficulties in our way

Mr Alexander The position taken by the gentleman from Lane is [illegible] but it is subject to some difficulties Some members who were present this morning when the House adjourned are now absent and I cannot see how we can compel their attendance If we go on with the business in their absence it seems to me we would not be taking a very proper course.

Mr Hare It is a question [illegible] whether we can expunge any part of the Journal of this morning [illegible] The motion of the gentleman [illegible] was regularly made entered by the Clerk and agreed to by the House that is the most apparent upon the Journal It appears to the minds of some that we have got ourselves into a dilemma It is proposed by the gentleman from [illegible] to reconsider the vote It is a question as to whether we can do that The House has adjourned until Monday The gentlemen present may be members of the House yet we are not a legal organization I would prefer to take a different course wait till Monday then go on with our business and consider Sunday not a working day It is true we get but $120 per diem for a session but the Constitution does not say that we shall not take longer than forty days I do not think that the House has acted unconstitutionally and I think we have no power in our present disorganized condition to rescind the action of the House Perhaps we had better take a recess for a few hours and reflect upon the matter I am sorry the House adjourned this morning I am sorry that my breakfast was so late that I could not be here at 8 o'clock but I don't see how we can now mend matters

Mr Whiteaker—If there was a regular adjournment this morning, I think there can be no question that this body now has no power to rescind that motion but there may have been circumstances connected with the adjournment which would make it illegal. Unfortunately as in the case of my friend from Washington I was not present This is not the House at present, or I would apologize for my absence Sitting here in our present condition we cannot even order a call of the House or transact any other business

Mr Lockhart in the chair

Mr Dunbar—While I regret that this house adjourned and voted against such action I am clearly of the opinion that we are not now competent to transact any business I believe we can legitimately do nothing but await until the arrival of Monday morning

Mr Alexander—The Clerk has just informed me that at the time of the adjournment this morning, there was not a quorum present The Constitution says we cannot transact business without a quorum, but may adjourn from day to day—it does not permit us to adjourn over for two or three days without a quorum There were eighteen absentees at the time and twenty nine present it takes thirty one to make a quorum

Mr Hayden—So far as the policy of this morning's adjournment is concerned I think it was not a good one but I think it was entirely Constitutional The Constitution says we shall not adjourn for more than three days This is Thursday We have had a session to day and it cannot be counted as one of the days that we have adjourned over We cannot count Monday Then there only remains Friday Saturday and Sunday—three days Now three days are not more than three days I am of the opinion that the House had power to adjourn until Monday and I think we cannot legitimately do anything but await until then [illegible] way in which four days can be made out of three

Mr Hare—I think the gentleman from [illegible] has struck the right idea

Mr Dorris—Let us all go to the Fair then [Laughter]

The members then broke ranks by common consent

The Emperor, the Empress and the Prince in Exile

The New York *Herald* has a word to say in behalf of the captive French Emperor and says it thus

We have reprobated the attacks of the Empire on Germany, and we have greeted the formation of a republic But it is a duty as well as a right to pronounce justice and now by much concurrent testimony, we are informed that despite feeble health and excruciating pain, the Emperor Napoleon Third strove, at the last, to do all that a reasonable man could do by the influence of his personal presence on the battle field at Sedan. Both French and English correspondents state that he was on foot among the troops from eight in the morning until three in the afternoon He first went to the corps of General Lebrun at Balan where the action was very fierce encouraging the soldiers and displaying the greatest coolness amid the storm of shot and shell He was four hours on the field in that direction where the peril was most imminent Afterward while he was in the sub prefecture of Sedan in the very centre of an avalanche of fire several shells burst on the roof and in the courtyard and the adjacent streets were flecked with bleeding corpses Even then he made no offer to yield until commander after commander arrived to urge that further resistance would only involve the slaughter of the whole army

The Empress, too, toiled night and day with her Ministers and in the hospitals at Paris For two weeks preceding her departure she hardly disrobed or slept and all who saw her pitied the anxieties that had nearly bereft her even of the ordinary appetite for food while they sympathized deeply with the tenderness of heart that made her daily pass laborious hours in the military hospitals The poor young Prince a mere child in years after being buffeted about day after day and week after week between the armies, was at Namur in Belgium by the Emperor's order pale weak and downcast when he heard of his father's captivity He remained for a few moments with his head bowed and in tears then looking up he said All this is nothing, shall France but be spared entire

And now this little family of three persons the father the mother and the son—are virtually banished from the soil of France as well as cast down from their high political estate The head of the family is a prisoner more securely held than was the first Napoleon on his rock at St Helena the modern Prometheus with the vulture of a disappointed ambition that would have scaled the very heavens gnawing at his entrails The lesson is most impressive one to contemplate as the solace to the chief actors in the scene let all who rejoice at their fall believe is the consciousness of having acted well their part in the [illegible] hour and having borne with dignity the inevitable decree of fate Napoleon [illegible] and the Prince [illegible] worthy of the respect of mankind in their reverses than in their grandeur

The World Grows Wiser
The human stomach has been a shamefully persecuted organ There was a time when for every disturbance of duty it was punished with huge doses of the most disgusting and nauseous drugs In vain it rejected them and literally returned them upon the hands of those who administered them They were forced upon it again and again until its solvent power was thoroughly destroyed [illegible]
The world is wiser now than it was in that [illegible] era, when furious purgation and mercurial salivation were what Artemus Ward would have called the main hold of the faculty in cases of dyspepsia and liver complaint
The great modern remedy for indigestion and bilious[illegible] is Hostetter's Stomach Bitters, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties as were never heretofore united in any medicine
It has been discovered at last that sick people are not like the fabled Titans who [illegible] prostrations [illegible] fresh [illegible] that when knocked down they [illegible] earth [illegible] as vigorous as before When an invalid [illegible] prostrated by powerful depleting drugs [illegible] prostrated, and the debilitated being [illegible] prefer the building up to the knocking down system of treatment
Hostetter's Bitters meets the requirements of the [illegible] medical philosophy which at present prevails It is a perfectly pure vegetable remedy embracing the three important properties of a preventive a tonic and an alterative It fortifies the body against disease invigorates and revitalizes the torpid stomach and liver and effects a most salutary change in the entire system when in a morbid condition

Science vs Luck

At that time in Kentucky (said the Hon Mr Knott M C) the law was very strict against what it termed "games of chance" About a dozen of the boys were detected playing "seven up" or "old sledge" for money and the Grand Jury found a true bill against them Jim Sturgis was retained to defend them when the case came up of course The more he studied over the matter and looked into the evidence the plainer it was that he must lose a case at last—there was no getting around that painful fact Those boys had certainly been betting money on a game of chance Even public sympathy was roused in behalf of Sturgis People said it was a pity to see him mar his successful career with a big prominent case like this which must go against him

But after several restless nights an inspired idea flashed upon Sturgis, and he sprang out of his bed delighted He thought he saw his way through. The next day he whispered around a little among his clients and a few friends, and then when the case came up in court he acknowledged the seven up and the betting, and as his sole defence he had the astonishing effrontery to put up the plea that old sledge was not a game of chance There was the broadest sort of a smile all over the faces of that sophisticated audience The Judge smiled with the rest But Sturgis maintained a countenance whose earnestness was even severe The opposite counsel tried to ridicule him out of his position and did not succeed The Judge jested in a ponderous judicial way about the thing but did not move him. The matter was becoming grave The Judge has lost a little of his patience and said the joke had gone far enough Jim Sturgis said he knew of no joke in the matter—his clients could not be punished for indulging in what some people chose to consider a game of chance, until it was proven that it was a game of chance Judge and counsel said that would be an easy matter and forthwith called Deacons Job, Peters Burke and Johnson and Dominies Wirt and Miggles to testify and they unanimously and with strong feeling put down the legal quibble of Sturgis by pronouncing that old sledge was a game of chance

"What do you call it now" said the Judge "I call it a game of science" retorted Sturgis, "and I'll prove it too!"

They saw his little game

He brought in a cloud of witnesses and produced an overwhelming mass of testimony to show that old sledge was not a game of chance, but a game of science

Instead of being the simplest case in the world, it had somehow turned out to be an excessively knotty one The Judge scratched his head over it awhile and said there was no way of coming to determination because just as many men could be brought into court who would testify on one side, as could be found to testify on the other But he said he was willing to do the fair thing by all parties, and would act upon any suggestion Mr Sturgis would make for the solution of the difficulty

Mr Sturgis was on his feet in a second

"Impanel a jury of six of each Luck vs Science—give them candles, and a couple of decks of cards send them into the jury room and just abide by the result "

There was no disputing the fairness of the proposition The four deacons and the two dominies were sworn in as the 'chance' jurymen, and six inveterate old seven up professors were chosen to represent the 'science' side of the issue They retired to the jury room

In about two hours, Deacon Peters sent into court to borrow three dollars from a friend [Sensation!] In about two hours more Dominie Miggles sent into court to borrow a "stake from a friend. [Sensation] During the next three or four hours, the other dominie and the other deacons sent into court for small loans And still the packed audience waited, for it was a prodigious occasion in Bull's Corners, and one in which every father of a family was necessarily interested

The rest of the story can be told briefly About daylight the jury came in, and Deacon Job, the foreman read the following

VERDICT

We, the jury in the case of the Commonwealth of Kentucky vs John Wheeler *et al*, have carefully considered the points of the case, and tested the merits of the several theories advanced and do hereby unanimously decide that the game commonly known as old sledge or seven-up is eminently a game of science and not of chance In demonstration whereof, it is hereby and herein stated iterated, reiterated, set forth, and made manifest, that, during the entire night, the 'chance' men never won a game or turned a jack although both feats were common and frequent to the opposition, and furthermore, in support of this our verdict, we call attention to the significant fact that the "chance" men are all busted, and the "science" men have got the money. It is the deliberate opinion of this jury that the "chance" theory concerning seven-up is a pernicious doctrine, and calculated to inflict untold suffering and pecuniary loss upon any community that takes stock in it.

"That is the way that seven up came to be set apart and particularized in the statute books of Kentucky as being a game not of chance but of science and therefore not punishable under the law," said Mr. Knott "That verdict is of record, and holds good to this day "—["Mark Twain," in the Galaxy

WHOLESALE TRADE.

There is a fair and steady trade doing in all branches of business Considering that for four days past the Tenth Annual Exhibition of the State Agricultural Society has drawn away thousands of people from their regular pursuits, it is a little remarkable that there is no apparent slacking in the jobbing and wholesale line.

The inward arrivals have been the most marked and significant of any ever heretofore in the same duration since the settlement of Oregon Twelve sailers and three steamships have reached this port and discharged, or are discharging cargoes of assorted goods within the past ten days.

The North Pacific Transportation Company have settled upon a steady schedule for the departures of their steamers in the line between San Francisco and Portland. Hereafter until further notice a steamer will leave Portland on Tuesdays, and one will depart hence from San Francisco on Thursdays weekly

There are no marked changes in the prices of goods from our latest quotations Usually the market is firm

DOMESTIC PRODUCE

Grain rates to day are Wheat good white to buyers per bushel, red 75c. Oats 30@35 cents per bushel according to quality We are informed that an average of 1,800 bushels of wheat per day has been received from wagons alone, for the past ten days and sales are uniformly within the range of these quotations Wheat in the foreign markets was a shade firmer and more active along about the first of the month, owing to the warlike aspect of Russia, it being reported that that power had virtually declared war against Prussia, but recent reports inform us that dealers in a majority of cases are afraid to either buy or sell, and so extreme of caution governs all movements in the grain trade

There is here a good demand at present rates but prices farther interior scarcely justify sales. The market in other respects is exceedingly quiet. Provisions are nominal without change

Jobbers in domestic produce are firm in their positions and hold at the same rates prevailing last week without recommendation to quote under these figures Both the *George S. Wright*, the Sitka and the *California* are to leave for northern ports to morrow evening take good cargoes, of produce generally

The supplies in the California markets prevent more than a limited demand for produce there Hence shipments are very moderate, in proportion to the opportunity to procure tonnage which was never before so good as now

The Oregon and California Railroad Company have not yet brought any grain or produce to market by cars, but are arranging to do so The several steamers in the trade, however continue to bring very large quantities Much more than usual so early in the season at this low stage of water

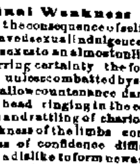
TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES!

Dr Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhoea Gleet Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these terrible life-destroying maladies see that they are cared for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publish a few falsely in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness

Seminal Emissions the consequence of self abuse This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head ringing in the ears, noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory, hectic flushes pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats monomania and frequently insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of those fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case symptoms [illegible] medicines [illegible] forwarded free from damage and curiosity [illegible] directions [illegible] for Ten Dollars sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate

Beware of the San Francisco quacks and pretenders) who with bogus sworn certificates dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades Some are tinsmiths shoe makers newspaper carriers intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters etc Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure

THE RIVERSIDE

HOMESTEAD ASSOCIATION

OF

EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock

Applications for ONE HUNDRED SHARES [illegible] before the books were opened, and a large [illegible] Shares have been taken

The following extracts from the *Oregonian* [illegible] will convey a good idea of the plan and [illegible] of the Association the location of the land, etc.

RIVERSIDE HOMESTEAD ASSOCIATION

This association of whose [illegible] an account a few days since, is now ready to dispose of shares As it is with one [illegible] the Portland Homestead Association,) the organization of that kind in this city, it [illegible] well enough to state what are its purposes and the manner in which it is proposed to [illegible] operations The purposes of these [illegible] Associations are not at all speculative in the ordinary sense of the word. They are [illegible] for the profits of their investment upon the [illegible] ral advance in the value of their lands, [illegible] quent upon the co-operation of many individuals —shareholders—and the advance on [illegible] surrounding lands by reason of the [illegible] population and demand for [illegible] still near, the city The Riverside [illegible] Association has a fraction over one [illegible] twenty acres of land situated just south of Brooklyn on the east side of the river, [illegible] est boundary line being about one mile from the ferry landing at East Portland. The [illegible] in one strip along the Wallamet river, half a [illegible] in length and another strip along the Oregon [illegible] California railroad, half a mile in length, the strips being connected near the middle by [illegible] rows of blocks (with a street [illegible] the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 [illegible] streets running at right angles) and 80 [illegible] al lots along the river front. The shares number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot [illegible] vided interest in the 80 fractional lots. The fractional shares are to be sold off at the [illegible] for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all [illegible] taken and the Association shall determine to do it, the choice of lots and blocks will be put up at auction to the highest bidder the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole number of [illegible] Thus, if a person wants a particular lot or block and is willing to pay $100 or $200 premium [illegible] or less as the case may be) he pays it and gets the lot or block as his individual [illegible] premium being divided among the whole number of shareholders It will be seen, [illegible] everything is co-operative, and all [illegible] ius] No man can make a dollar out of [illegible] out also making a dollar for every other shareholder There is no chance for [illegible] the property by some chance [illegible] far below the first [illegible] liable to happen in the case of this [illegible] tract of land must be judged by [illegible] but considering the steady and [illegible] vance on real estate in this city and [illegible] hood, and at East Portland [illegible] last year or two, it [illegible] values to go back [illegible]

In the Riverside A[illegible] tions seem to have been taken to guard against monopolies of shares No [illegible] buy more than the number of shares [illegible] three blocks, or twenty-four lots and [illegible] termining the operations of the [illegible] restricted in the same manner. The [illegible] shares may pay down $60 per [illegible] exempt them from all [illegible] pay $15 quarterly with [illegible] share, payable with the first [illegible] liable in this latter case to [illegible] other) assessment of [illegible] payment of the shares in full, with [illegible] as above, the holder is entitled to his [illegible] and his proportion of all the profits [illegible] all sources. No officer of the [illegible] any pay for services except the [illegible] gets $25 per month, so it will be seen that expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about [illegible] above the water There is no part of the first row of blocks but commanding [illegible] Portland and the river for miles up and down the stream That part of the tract [illegible] railroad is, every foot of it, of [illegible] soil and adapted to gardening [illegible] A beautiful little stream of pure water runs through almost the entire length of this part of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract There is not a [illegible] lot in the entire tract. Under all these advantages, it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he chose, may get a perfect title to as many lots as his shares may represent, or he may continue his interest undivided, with the Association while the Association may exist.—*Oregonian*.

THE RIVERSIDE HOMESTEAD ASSOCIATION

We have been led to make these [illegible] fact that the subject of making [illegible] skirts of this city and East Portland [illegible] discussed here among all [illegible]

Riverside Just south of East Portland [illegible] been established The site [illegible] ng a little over a mile south of the ferry landing, [illegible] shaped like the letter H, one side of which, a half mile in length borders on the river

From this portion of the homestead, which is elevated but a trifle above the other parts of the H, but is still forty or fifty feet above the river, can be had an extensive view of Portland, East Portland, the [illegible] the Willamette river for several miles. The [illegible] fertile and is partly covered with light [illegible] tract of land just wide enough for two rows of blocks, with an avenue between them connects the west prong of the H (which has already been [illegible]) the east This last tract of land is in a [illegible] valley which is now under a high state of [illegible] Through its whole length runs a trout brook, the water of which is clear as crystal With a hydraulic ram the Association propose to have water conveyed [illegible] pipes to every portion of the homestead
